About this site

The Quality Indicators for Learning and Teaching website provides prospective students with relevant and transparent information about Australian higher education institutions from the perspective of recent students and graduates.

This student feedback is interactive and searchable containing data about student experience and graduate outcomes, ensuring information is available for students to make informed decisions about their study options.

A filter is provided on the website to help you refine your search results. It is not intended to match the delivery locations for each study area offered by an institution. When a state is selected, it will display all institutions that have a campus in that state.

This website is maintained by the [Social Research Centre](#). All [queries about the website](#), including requests for data, should be directed to the Social Research Centre.

The Quality Indicators for Learning and Teaching, including this website, are funded by the Australian Government Department of Education and Training.

What do tertiary students say about Australia?

- Reputation, quality and personal safety (93% each) are the main factors for why students chose Australia over other destinations.
- 88% of respondents satisfied with their overall experience.
- 89% of respondents satisfied with living in Australia
- 87% of respondents satisfied with their study experience

Ensuring quality and protecting students

- ESOS
- International student fact sheet
- Student safety guide

International education: ensuring quality and protecting students

Australia welcomes international students

The Australian Government wants international students to have a rewarding and enjoyable experience when they come to Australia to study. Australia offers high quality education services and protects the rights of international students to ensure you make the most of your time here.

This fact sheet contains important information for student visa holders about living and studying in Australia, including your consumer rights and responsibilities as an international student and key things you should know before and during your study.

Australian laws protect international students

As a student on a student visa, you benefit from Australian laws that ensure high standards of education, facilities and support services while you are in Australia. You also have rights to information about your course and the institution you wish to study with before and during your enrolment. The Education Services for Overseas Students (ESOS) framework offers you financial protection in case your education institution does not deliver what it has promised you.

You can find out more about the framework at <https://internationaleducation.gov.au/regulatory-information/pages/regulatory-information.aspx>.

Before you begin your studies

Choosing a course to study

As an international student, you can only study a course with an education institution listed on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS). All institutions registered on CRICOS have met the quality standards set out in Australian law, which ensures you receive the best possible education services.

CRICOS is a good place to start when you want to find a course or education institution to study with, and can be found at <http://cricos.education.gov.au>.
